Dear Mr Weinberg

As I wrote you before I am looking for a Fiction or historian writer who would have guts and be entitled by his previous work For opening of the File (FBI) on the gestapo spy ring apprehended in U.S. in mid 1942. It was under surveillance of military intelligence From beginning of 1941. See reverse of this letter. It is still jelously kept secret. The late Edgard E. Hoover wrote me I should even not dare to think about. Certainly nobody can write a book From couple fragmentary things I wrote you. There are probably couple cubic Feet of Files. I suppose you watched last Sunday the interview by Sylvia of M. Lane and slow mumbling Sprague on T.V.

Very truly yours
